DIMENSIONS:

EXU..

ACCESSORIES:

EE-BP5 Surface mounting backbox for EXU..

WIRING:

EXU..

When the momentary action push button is pressed a circuit is made.  
 This can be wired to a time switch which extends the plant running time.  
 The NEON Light can be wired to show that running time has been extended.

**CAUTION:** These products may be connected to 230VAC supply. On the 24VAC device do not exceed rated voltage supply. Isolate device from electrical supply before removing cover. Always ensure the device operates correctly. If failure of the device can cause damage a safety backup control should be fitted. All data is for guidance purposes only, subject to change without prior notice and not guaranteed to be absolutely correct unless confirmed by us in writing.

Device should be checked by a qualified technician before applying any voltage. Observe all relevant safety precautions, wiring/earthing regulations and electrical ratings.
